numbered its entire list of opponents this year without a defeat. The southern county boosters are in consequence claiming the southwestern championship and if the locals defeat them tomorrow they will succeed to the title. On the other hand there is little doubt that Deming's title to the championship would be disputed should the locals be defeated in this final contest.

Starting: D. B. Lane.

The inspectors will be provided with automobiles and will accompany the men along the course to see that the conditions of the race are observed. Police protection will be provided to keep spectators from encroaching on the course in the city either at start or finish.

**OFFICIAL INQUIRY MADE INTO CABLE EMBARGO IN TURKEY**

Washington, Nov. 25.—The United States is inquiring of Turkey about the reported action of the parts in refusing transmission of code dispatches between neutral diplomats in Constantinople and their home offices. Such an action would prevent Ambassador Morgenthau from communicating with Washington in the state department code.

News of Turkey's reported action comes through the cable companies and so far there has been no official notice served upon the state department by any authorized agents of the Turkish government. The United States will insist upon its right of free communication with its diplomatic representatives as long as telegraphic and cable lines are open to general use or in fact workable.

There is always the implied understanding that such messages shall be strictly neutral and not be the means of conveying any information of military value.

Nothing had been heard today from Ambassador Morgenthau in response to a request for a detailed account of the circumstances attending the firing upon the cruiser Tennessee and launch by Turkish forts at Smyrna on November 17, and it is supposed that he has been delayed by difficulty in communicating with Consul General Norton at Smyrna.

Sheriff Jesus Romero has given orders that nothing be spared to make the board at the jail groan with good things. There will be turkey, cranberry sauce, pumpkin pie and all the other fixins, including fragrant ham for the holiday dinner an annual custom, and he takes as much interest in seeing that the feast is all it should be as he does in the dinner at his own table.

There are thirty prisoners in the jail at the present time. Five of them are women.

**POONCE EXTRADICTED TO TENNESSEE TODAY**

El Paso, Tex., Nov. 25.—Extradition to Tennessee was granted today by Governor Colquitt of Texas in the case of Lito Ponce, wanted at Memphis in connection with the circulation of counterfeit Mexican money. Ponce's attorney, however, will fight extradition through habeas corpus instituted some days ago, but refiled today in the district court here.

Ponce was arrested on telegraphic advice saying charges of larceny and obtaining money under false pretenses had been placed against him in Memphis. The case becomes of special interest here in view of the frequent failure to secure convictions in similar cases at El Paso and other border points. Through the efforts of El Paso officials, the state of Texas recently passed a statute covering the manner of manufacture and circulation of bogus money of foreign governments not recognized by the United States.
